REPORT NO.**Return to CIA Library**

25X1X

A counting of all flatcars with load capacities between 30 and 100 tons was ordered for 14 March 1950 in the Berlin railroad district. The pertinent reports were to be accompanied by "technical condition sheets" filled out by the responsible technical personnel. The cars used for the tank shuttle trains were also recorded.

25X1A

Comment:

Report confirms the assumption voiced in a previous report * that the numbers of heavy-duty flatcars suitable for the shipping of tanks would be ascertained in all the railroad districts on the same day.

25X1A

This document is hereby regraded to CONFIDENTIAL in accordance with the letter of 16 October 1978 from the Director of Central Intelligence to the Archivist of the United States.
